

Programs for Prospective Parents

Building a Family

Adoption Network Cleveland has multiple ways to help parents seeking to adopt or provide a permanent home to a child in need. As a nonprofit support organization that is not an adoption agency, we provide unbiased support and education.

Three services meet these needs:

1. Helpline - Individualized one-on-one answers for parents adopting from foster care, providing kinship care, or seeking guardianship.
2. Adoption 101: Where Do I Begin? (Workshop)
3. Adoption 201: Adopting Infants Domestically (Workshop)

Helpline

Our Helpline provides prospective parents with answers to questions concerning adoption, kinship and foster care; how to achieve permanency for children and guide families to successfully navigate the complexities involved in adopting from the public child welfare system.

Call our Helpline, 9 AM–4:30 PM Monday through Friday, or email Julius Jackson anytime.
